

Well, we have scheduled a fly-in to Huntsville, AL (KHSV) on Saturday, March 27th. The Signature Flight will provide FBO services and a fuel discount as well as making space for us to park together.

This month's event is an opportunity to get the family flying. The meeting will be brief at signature followed by a day at the Huntsville, U.S. Space & Rocket Center.

Transportation is a must; Signature has rental cars available and there is a pilot rate for the Sheraton hotel (4 star) on field.

Contact Signature Flight @ (256) 772-9341 for Rates.

Visitors to the U.S. Space & Rocket Center will experience Huntsville's role in the making of the moon rocket, the space race, the Apollo missions, learn about the Space Shuttle program, the International Space Station and onto the next beginnings with NASA's Constellation project. Visitors may trace the evolution of humankind's ventures into space and watch as tomorrow's potential engineers, scientists and astronauts train in one of the Space Camp or Aviation Challenge Programs.

The USSRC, NASA's first visitor center, opened in 1970 and has served over 12 million visitors to date. As the Official Visitor Information Center for the Marshall Space Flight Center, the USSRC is committed to educating the public and students who attend SPACE CAMP about the work being done at MSFC, particularly in the area of propulsion where MSFC has made significant contributions in the Apollo and shuttle programs and is again on the forefront with the Ares rockets.
